

ACCOUNTANCY FIRM OF THE YEAR

3E Accounting PLT

The firm's broad range of expertise allows them to assist at all stages of development, ranging from pre-setup care (including business licenses, visa requirements and virtual office services) through to business growth and overseas ventures.

3EACCOUNTING
one stop solution for your business

3E Accounting PLT is a Malaysia-based accounting firm which specialises in cost-effective professional financial solutions. The firm offers exceptional services in accounting, taxation, legal, marketing and clerical support to start-ups and small-to-medium-sized companies, helping domestic and international clients alike. This is achieved through the company's well-respected and experienced team, utilising a range of diverse international, cultural, academic, and professional backgrounds to offer comprehensive client care.

The firm belong to such organisations as The Association of Chartered Certified Accountants (ACCA), The Malaysian Institute of Accountants (MIA) and are a Goods and Services Tax ("GST") Agent licensed by the Malaysian Ministry of Finance. This professional recognition reflects the high standards that 3E adhere to, both in quality of service and in-house development of staff.

Perfectly geographically positioned to offer access to markets in Southeast Asia, 3E Accounting can assist businesses with market development in Malaysia and beyond. This allows them to serve as a vital port-of-call for everything a new start-up could need, able to assist businesses in every aspect of setting up and developing a new business in the country from the earliest possible point.

As a company set-up specialist and registered agent with the Malaysian Institute of Accountants (MIA), they can provide a broad range of services, including; Malaysia company incorporation, Malaysia limited liability partnership and business registration, offshore company formation, GST accounting, bookkeeping, management accounting, human resource and payroll, liquidation and striking-off of company or limited liability partnership, corporate and personal taxation, tax management and relief for international trade, various licensing applications and Malaysia business advisory.

The firm's broad range of expertise allows them to assist at all stages of development, ranging from pre-setup care (including business licenses, visa requirements and virtual office services) through to business growth and overseas ventures. We found 3E Accounting to be an invaluable resource for businesses operating in Malaysia, their fast, responsive assistance allowing companies to match the frenetic pace of the modern market.

In the internet era, even local businesses are expected to be mindful of global markets. 3E Accounting makes this expectation a reality, offering comprehensive care and expertise to its customers to ensure they always receive quality service which in turn translates to greater global success as their businesses develop.
